

MY FAMILY PLAYS MUSIC

BY JUDY COX - ILLUSTRATED BY ELBRITE BROWN

This is an easy read that can be used for so much in the classroom! The story takes you through a young girl's family and all the different instruments and styles of music they play. This book is great for introducing or reviewing instruments and their families but could also be a great story for discussing different styles of music, including Big Bands, Bluegrass, Country-and-Western, Jazz, Marching Bands, Polka Bands, Rock 'n' Roll, and String Quartets. I also love that at the end of the book they have a glossary that gives a description of each of the styles of music as well as each instrument family!
