

# Freddie the Frog and the Thump in the Night

By Sharon Burch

Illustrated by Tiffany Harris

*Freddie the Frog and the Thump in the Night* is a great book to use when you have the “non-music-teaching-substitute”. The book was originally intended as a way to teach the note names of the treble clef staff. I, however, do not use it for this purpose, but I am sure there are many that do.

I like to leave this book for substitutes to read to students and when I come back we discuss the staff using the book. I like to discuss line notes and space notes and also how notes move up and down the staff. This is a great book if you are introducing the 5 line staff! There are also 3 more books in the series as well. Check it out!
