# SONG GARDEN

Written by Vicky Weber

Illustrated by Zoe Mellors

This delightful story tells of a girl named Callie and her adventure of composing her own song. Throughout the book there are many opportunities to discuss the shape of melodies that Callie and her friends create.

The author and illustrator do a wonderful job of incorporating the music staff in their story. This book lends itself nicely to echo singing with older students working on contour as well as younger students working on high and low sounds. I hope you enjoy!
