

Tikki Tikki Tembo

By: Arlene Mosel

Reviewed by: Amanda Weddel

This book is about two brothers who fall into the well near where they are playing. The youngest brother has a very short name, and the oldest has a really long name. When the oldest falls into the well it takes the youngest child much longer to get people to help him because his name is so long.

To me, the book seems to be a big rondo, so I wrote a small little "A" section that could serve then as a transition to a musical rondo with either some established other sections. Or perhaps even some improvisation in E-mi pentatonic! :)
