

Using Canva in Elementary Music

Amanda Weddel - Falling Waters Elementary -

Canva is a great online tool that can be used by educators to create so many different things. If you go to canva.com you can sign up as an educator for a free educator account. From there, you have access to a large number of fonts, images, and animated elements, as well as the ability to upload your own images.

I use canva to create slide presentations, posters, and even my paper music programs. It's so quick and easy to use and doesn't have the challenges that sometimes come with formatting in word and other programs.

Please don't hesitate to reach out if you are wanting to learn and have questions!
